GREEN WORKWEAR

Everything from a single source!

We combine the expertise of full-cycle textile production (spinning, weaving, finishing, and garment making) with the design of professional healthcare clothing.

Tasks are clearly divided:
Dibella handles production, further development, quality assurance, and garment making of socially and ecologically produced goods. The company also brings extensive experience in smoothly managing large orders and stockholding, backed by the necessary capital.

The Green Workwear team is responsible for collection creation, warehousing, shipping, and sales of professional workwear.

Via Green Workwear, you get:

Your benefits:
- Industrial laundry-safe quality
- Standard UHF transponders since 2024 production year
- Traceable, transparent supply chains via respect-code
- High stock availability
